MIGUA MOVEMENT JOINTING • DIAMOND BLADES • CORE DRILLS • CUTTING • DRILLING MACHINES

12 September 2008

GROUP FIVE KWAZULU NATAL (PTY) LTD

Att: Mr Muhammad Fakir

Re: New Durban Stadium – Migua Joints

Dear Mr Fakir,

We confirm that we have no hesitation in recommending Fakazi Construction for the installation of Migua Movement Joints.

They have over the past 6 or 7 years satisfactorily installed Migua products in a number of major shopping centres and the Suncoast Casion in Durban.

In addition during 2005/6 they installed a watertight Migua system at the Toyota Paint Plant in Prospecton, Durban.

This is the first & only installation of it's type in South Africa & required a high degree of competence.

Their installation met all the quality requirements & was "on time".

We are often asked to provide a referral to an alternative installer but this presents a problem: we have numerous installers around the country but they are all tiling sub-contractors and shy away from what one might call engineering/ industrial installations – mainly due to their lack of experience in this field.

We trust that the above is of assistance.

Yours faithfully,

Eldrid Laurensen
