Condition Monitoring and Maintenance

International & Local content

Condition Monitoring and Maintenance

With today's limited time and budget restrains Micro Tech (Pty) Ltd identified a market to train personnel up to various levels in as short as possible time. Giving them the skills and knowledge to get them going as soon as possible. Micro Tech also have advanced training courses available to ensure the student reaches it's full potential. The course material will cover subject theory and practical exercises to ensure a student get a firm understanding on how these disciplines and maintenance strategies compliment predictive and pro-active maintenance strategies. From basic knowledge to get a person of the ground to advance data analyses and interpretation. Filing reports and building programs to suit their companies various needs. Students will also be able to apply their knowledge immediately on leaving the various courses.

*

Micro Tech in association with John Patch and associates has full **MerSETA** approval.

*

Micro Tech is a member of the **ASNT** (American Society of Non destructive testing)

*
